Intertek LSI

trusted provider of quality solutions

For more than 130 years, Intertek has been providing professional and reliable bulk commodity inspection quality and quantity services.

Strategically located in major ports, terminals, mines, smelters and warehouses our teams of qualified surveyors and samplers are available to represent and protect our client's interests providing our international client with the opportunity to appoint consistent intervention operations standards at load and discharge ports.

Intertek's network of trade inspectors and samplers survey, weigh and sample a range of high value bulk commodities and concentrates.

Intertek certificates of weight and quality support commercial contracts and settlement through party exchange. Umpire assays provided through Laboratory Services International BV (Intertek-LSI), a London Metal Exchange (LME) listed sampler and assayer, based in Rotterdam and globally viewed as a leading independent analytical

expert recognized as an industry leader for accuracy, service and quality also listed by the Minor Metals Trade Association (MMTA). Our experienced marine surveyors also deliver a wide range of marine and vessel services, stockpile inspection and sampling and equipment inspection.

Intertek is a member of IFIA and performs inspection services to global industry standards. Quality is assured through our technical expertise and support through the ISO standards 17025, 9001 and 17020. Through our worldwide network, we help our customers to meet end users' expectations.

Our network of mineral laboratories offers world-class geochemical assay and testing services including sample preparation, fire assay and precious metal analysis, exploration geochemistry, environmental testing, mine-site laboratories, coal testing and inspection, consulting minerals inspection, robotics and automated laboratory systems.
